The issuance of this permit is subject to the conditions set forth on the following pages.

Thomas Horner
Senior Environmental Scientist - Supervisory
Chief, Medical Waste Management Program

PERMIT CONDITIONS

MediWaste Disposal, LLC (the “Permittee”) shall operate **MediWaste Disposal, LLC - Hayward** (the “Facility”) in compliance with the following conditions:

1. Permittee shall comply with all applicable provisions of the Medical Waste Management Act (MWMA); HSC Section 117600 *et. seq.*
2. Permittee shall comply with all applicable provisions of the California Code of Regulations (CCR), Title 22, Division 4, Environmental Health, Chapter 21, Minimum Standards for Permitting Medical Waste Facilities.
3. Permittee shall comply with all other applicable state and federal laws and local ordinances that pertain to the management of medical waste and the operation of this Facility.
4. Permittee shall operate the Facility in conformance with all provisions and specifications of the Operations Plan, Emergency Action Plan, Training Plan and Closure Plan (the “Plans”) as submitted and approved by the Department, including any approved amendments to the Plans. The permittee may not deviate from or amend the Plans without express prior written approval of the Department.
5. Permittee shall apply to the Department for approval, prior to making modifications to the operations of the Facility.
6. All records referenced in these conditions shall be maintained in the Permittee’s files, retained on the premises of the Facility, and filed, at a minimum, according to the date the waste is received. All records shall be maintained for no less than three years.
7. Permittee shall ensure that the proper tracking documents are presented by the transporter at the time waste is delivered to the Facility. Copies of the tracking documents shall be maintained as required in Condition 6. Permittee shall comply with the following:
 - a. Permittee shall document and track all waste entering and leaving the Facility.
 - b. The Facility’s waste tracking documents shall include, but are not limited to, the requirements in HSC Section 118040.
8. Permittee shall notify the Department within 24 hours of downtime for maintenance or repairs, if the time will exceed that set forth in the Operations Plan.
9. Permittee is expressly prohibited from accepting radioactive materials at the Facility. To ensure that radioactive waste is not accepted at the Facility, the Permittee must take sufficient steps including, but not limited to the following:
 - a. Reject at the point of generation any containers of medical waste believed to be contaminated with radioactive material.
 - b. The directions outlined in “Guidance for Handling Radioactive Mixed Waste at Off-Site Facilities” shall be followed. Screen each load of waste using a properly calibrated and sensitive radiation detection instrument. The device

- shall be set to emit an auditory and visual indication when exposed to radiation equal to or greater than three times the background level. Permittee shall maintain a written record of each radiation alarm.
- c. Permittee shall at all times keep its radiation detection equipment calibrated and in good working order, and shall keep the Department informed of the specific radiation detection equipment in use at the Facility.
10. Permittee shall report to the Department any noncompliance with the MWMA, or the regulations promulgated thereunder or the conditions of this permit, or any unusual occurrences that may endanger health, safety, or the environment. This notification shall be provided orally within 24 hours from the time Permittee becomes aware of the circumstances. A written report shall be provided within five (5) days of the time Permittee becomes aware of the circumstances. This report shall comply with the requirements of 22 CCR Sections 65623 (j)(2) and (3), and (l)(1) and (2).
11. This permit shall terminate prior to its expiration date, if the permittee sells or otherwise transfers the facility, as stated in HSC Section 118180.
12. Per HSC Section 118170(b), the permittee shall file a renewal application with the Department not less than 90 days prior to the expiration date, or no later than **June 22, 2030**.
13. A copy of this permit shall be posted and maintained at the Facility at all times.

END OF CONDITIONS
